SECTION 8. Exposure Controls/Personal Protection **Sun Spray Ultra-Fine Year Round Pesticidal Oil**

PROTECTIVE EQUIPMENT SUMMARY - HAZARD LABEL INFORMATION

Splash proof safety goggles Impervious gloves Clothes to prevent skin contact

RESPIRATORY EQUIPMENT (SPECIFY TYPE)

Concentration in air determines protection needed. Use only NIOSH certified respiratory protection. Respiratory protection usually not needed unless product is heated or misted. Half-mask air purifying respirator with dust/mist filters or HEPA filter cartridges is acceptable to 10 times the exposure limit. Full-face air purifying respirator with dust/mist filters or HEPA filter cartridges is acceptable to 50 times the exposure limit. Protection by air purifying respirators is limited. Use a positive pressure-demand full-face supplied air respirator or SCBA for exposures above 50X the exposure limit. If exposure is above 10X the exposure limit (Immediately dangerous to life and health) or there is the possibility of an uncontrolled release or exposure levels are unknown, then use a positive pressure-demand full-face supplied air respirator with escape bottle or SCBA.

EYE PROTECTION

Splash proof chemical goggles recommended.

PROTECTIVE GLOVES

Protective gloves recommended when prolonged skin contact cannot be avoided. The following glove materials are acceptable: polyvinyl chloride (PVC), Neoprene, Nitrile, polyvinyl alcohol, Viton

OTHER PROTECTIVE CLOTHING

If contact is unavoidable, wear chemical resistant clothing. The following materials are acceptable as protective clothing materials: polyvinyl alcohol (PVA), polyvinyl chloride (PVC), Neoprene, Nitrile, Viton, Polyurethane. Launder soiled clothes.

ENGINEERING CONTROLS (VENTILATION ETC.)

Ventilate as needed to comply with exposure limit.
